

## NOTICE OF ELWCA SIDEWALK PRESSURE WASHING

The services of Riptide Pressure Washing have been retained to clean the sidewalks shown on the attached map. This service will be performed:

**APRIL 5 – APRIL 9**

What you need to know:

1. The service will include the application of an algaecide to remove and deter mold and mildew.
  - The application of algaecide will emit an odor that some may find unpleasant. The odor is not harmful and will dissipate within a day or two.
  - Keep away from recently serviced areas, until the concrete is visibly dry.
2. For your safety, stay clear of the equipment and crew members at all times. Remain indoors while the crew is near your unit.
